Transportation Engineering Intern

We are currently taking applications from **Civil Engineering Students** in the St. Louis area looking to work part-time during the school year and part- to full-time over the summer to gain experience in **Transportation Engineering**.

Experience Level: Rising junior or senior

Schedule: School year – up to 20 hours/week, Summer - 32-40 hours/week

Location: Downtown St. Louis

Essential Job Functions:

- Assist in the direct drafting and design of roadway, pedestrian and other transportation-related projects
- Work could involve design of drainage systems, detailed geometrics, and traffic systems
- Assist in preparing plans, specifications and estimates under direct supervision of a licensed Professional Engineer

Qualifications Desired:

- Must be enrolled in an accredited Civil Engineering bachelor's program
- Excellence in studies and strong desire to learn
- Ability and experience with AutoCAD and/or MicroStation in a previous job preferred
- Team-oriented and self-motivated
- Ability to learn quickly and work independently
- Strong competency in math
- Willingness to work hard
- Attention to detail

Benefits Summary:

This temporary position may provide an opportunity for full-time employment upon graduation, where TWM offers competitive salary and fringe benefits, exceptional bonus incentives, regular salary reviews and a non-contributory Employee Stock Ownership Plan.

Application Instructions:

- To apply visit www.twm-inc.com, click Careers and How to Apply and follow the instructions.
- Use the application for Engineering Positions.
- **Indicate "Application – StL Transp Intern" in the subject of your email.**
- An unofficial transcript from your university's online system can be e-mailed. Your transcript can be sent under separate cover if necessary.
- If your software does not support this download, call (314) 241-6300 and ask that an application form be mailed to you. No other phone calls, please.
- Apply early. Position will be filled as quickly as possible.
